

 **SOLTEVA**
E L E V A C I O N

Model: SE-P20

SOLTEVA offers the most effective, cheapest and fastest solution to adapt your swimming pool to the current regulations

EFFECTIVE:

- The user is autonomous and independent.
- It is not dangerous as it does not contain electricity, greasy or polluting elements. (EC)
- The dual control valve is conveniently situated so that the user can operate it to go up and down. You can also operate the valve if you are in the water in order that another user can make use of the lift and to void bothering other swimmers.

CHEAP:

- We are manufacturers, so you obtain factory warranty and price.
- A very simple mechanism (no faults).
- No maintenance (only external cleaning).
- A two-year guarantee.
- It works with water.

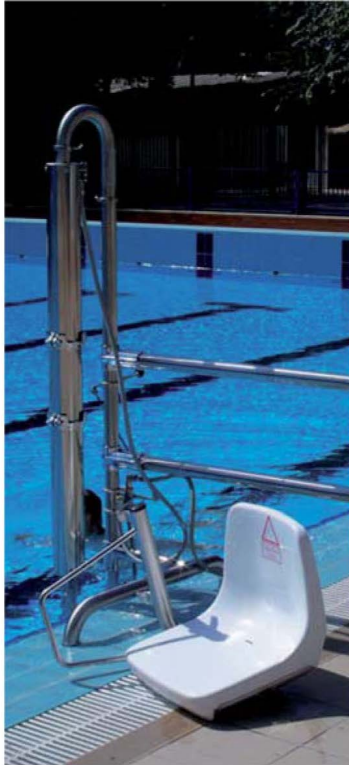

FAST

- No construction work will be required.
- No matter the situation of the pool (full, empty, under construction, etc.).
- The installation is very simple and fast. Only a water inlet and anchorage out of the pool are needed.

Neither the price, nor the installation or the space will stop you from enjoying a POOL FOR ALL.

Model: SE-P20

detachable seat

General features of the hydraulic lift SE-P20

- Approved to lift up to 150 and 120 kg.
