

INCLINED PLATFORM  
LIFT FOR STRAIGHT  
STAIRCASES

# LOGIC

**extrōma**<sup>®</sup>  
solutions in motion

OPERATES EVEN IN A  
BLACK-OUT

MODULAR SYSTEM,  
ALSO AVAILABLE FROM  
STOCK

## FUNCTIONAL DESIGN AND UNBEATABLE SAFETY: LOGIC'S EXCELLENCE AT PEOPLE'S SERVICE

LOGIC is an inclined passenger platform lift specifically developed for straight staircases. The use of anodised aluminium rails, the airtight wiring and the special painted finish make LOGIC suitable for outdoor installation. With its simple, elegant design, LOGIC blends perfectly into the original style and architecture of its installation context. Since it runs on rechargeable batteries, the lift can be used even in the event of power blackouts, while the motor-operated platform and safety bar opening and closure allow differently mobile users to operate it unassisted. Special priority is given to safety features, naturally always at

the top of their class: LOGIC has a series of devices which ensure it stops if the platform should accidentally encounter an obstacle on its path. LOGIC complies with all relevant EU standards.

ALSO DESIGNED  
FOR OUTDOOR  
INSTALLATIONS

<b>Minimum stair width</b>	850 mm
<b>Platform dimensions</b>	min 750x600 / max 1250x800
<b>Maximum load capacity</b>	250 kg (daN)
<b>Max. gradient</b>	10° - 45°
<b>Min. overall dimensions with platform closed</b>	350 mm
<b>Minimum rail overall dimensions</b>	115 mm
<b>Control circuits voltage</b>	24 V DC
<b>Speed</b>	0,1 m/s max
<b>Soft-start and soft-stop system</b>	standard

# CREATING MOTION

Designing and building equipment that overcomes the architectural barriers and obstacles that prevent people with reduced mobility from moving around freely: this is our corporate mission.

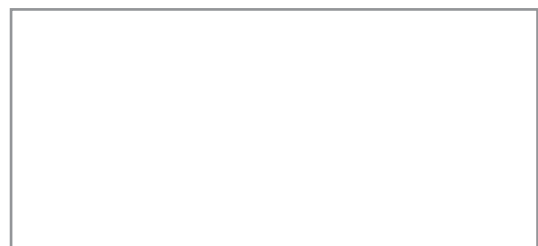

The aim is to create "total quality" in all contexts, from the home to public buildings, whether space is limited or in plentiful supply.

All our products are based on painstaking design work, to guarantee the customer the best solution to access problems in every context, especially where space is at a premium.

We build superior-quality inclined and vertical platform lifts with the aid of outstanding technological know-how and a modern, dynamic vision of the market. Our company consists of a young, highly motivated team that takes the satisfaction of people's needs as its first and only objective.
